

465N LIGHTBAR

HELIOBE™ Halfbar Series

The TOMAR model 465N HELIOBE™ halfbar is a highly visible and durable lightbar designed for public safety use. The 465N lightbar use TOMAR's NEOBE® technology that provides the look of neon with the power of strobe for a super high intensity glowing effect that is never dark. The 465N is optimum for mounting flush onto ambulance boxes or can be permanently mounted to the roofs of fire apparatus.

Xenon Strobe Lamps

All strobe lamps are water-tight, Hermetically sealed Xenon lamps with chrome coated reflectors for maximum reflector efficiency and long life. Choice of lamp colors are Amber, Blue, Clear, Green, Purple, Red or any split color combination.

Electrical Specification

12–28VDC draws 7 amps average @ 12.8VDC (48" lightbar)

Available Options

Lightbars can be configured with optional Takedown, Alley lights, Work lights and Stop-Turn-Tail lights.

Warranty Information

Ten year warranty on NEOBE® power supply and two year warranty on strobe lamps.

Ordering Information and Lamp Colors

For customers requiring more than our standard features, we offer additional options to further enhance and customize each lightbar to meet their state or local regulations. Please call our sales department or distributors for ordering information of all available configurations and options. See product pages RECT-34 and RECT-37 for available lamp colors.
